BSIS to Again Have Informational Booth at the Conference

We are pleased to announce that Chief Johnson has again offered to staff a booth at this year's conference. Representatives from BSIS will be on hand to address your questions and concerns. Be sure to look for and visit the BSIS booth!

Dear CALSAGA Members:

On behalf of the Bureau of Security and Investigative Services (BSIS), I would like to take this opportunity to congratulate you on another successful year. I am certain this coming year will be just as successful as previous years, and I look forward to a continued partnership in moving the private security industry forward.

The Bureau continues its outreach and enforcement efforts to ensure companies are operating in compliance with the Bureau's rules and regulations. Additionally, we have expanded our outreach to include law enforcement agencies and those who utilize private security services. We are educating them on the Bureau's licensing requirements and regulations.

BSIS continues to work with businesses that employ proprietary private security officers. In April, we held the first SB 666 Advisory Committee meeting with representatives from the proprietary private security industry to begin development on a training curriculum for proprietary private security officers. In June, the committee finalized their proposal and recommendations for a training curriculum. The curriculum was then presented to the Bureau and our next step is to develop regulations.

In closing, I would like to commend you for continuing to raise the bar and improve the professionalism of the industry. I extend my best wishes for a productive conference.

Paul Johnson
Chief
Bureau of Security and Investigative Services

The Bureau of Security and Investigative Services (BSIS) continues to maintain a close partnership with CALSAGA and work with on industry-related issues. We are honored to have Paul Johnson attend and present at this year's conference. We appreciate the efforts of BSIS and look forward to working closely with them to further improve and promote the private security industry.
